

# CORPORATE SOCIAL RESPONSIBILITY - ESG

## ARGENTINA

### Our Commitment to Sustainability

- Maximize efficiency in our management procedure.
- Inspiration to change, we constantly seek innovative ways to implement sustainable initiatives to decorate our events, an example of this, is environmentally friendly and recyclable decor, KM0 cuisine for our catering among other actions.
- Committed to improving our environment by taking CSR actions with the local community
- Ethics and respect guide each and every one of our projects, intending to enhance our relationship with clients and suppliers.

## ARGENTINA

### **Programs & events with a sustainable value and Suppliers aligned with the commitment to sustainability**

We carefully select our local operators to guarantee sustainability throughout the value chain.

### **Fair Trade**

We choose this way of purchase that adds value to people's work and impulse a responsible and sustainable use of natural resources.

### **Carbon footprint**

Our aim is to mitigate and reduce the carbon footprint generated in our everyday office routine and we motivate our clients to join us in our commitment to it.

# CORPORATE SOCIAL RESPONSIBILITY - ESG

## ARGENTINA

### How we do it...

- In terms of events and experiences, we suggest replacing the traditional disposable water bottles with refillable bottles to reduce plastic waste.
- For each confirmed reservation, a native tree will be planted in part of the degraded forests of Argentina, to partially compensate for the km traveled by the passengers.
- We offer our travelers the possibility to mitigate 100% of their carbon footprint, generated by the flights that connect the different destinations and excursions with low impact.

## ARGENTINA

- #Nofoodwaste, we ensure our food surplus is put to good use for donation in our community.
- Respect and equality are key factors on our commitment to sustainability
- When we choose venues for our clients' events we guarantee accessibility for everyone.
- In line with our commitment to sustainability, we like to suggest to our clients the use of recycled and reusable elements for décor, digital menus, venues that allow events in green open spaces, and more.
